- In line 34, after "cards" insert "and ensure that all are in current  
operable form" 9 10

The motion was \_\_\_\_\_ agreed to.

SYNOPSIS 11

**Master key boxes** 12

<b>R.C. 3313.475</b>	13
Requires public and chartered nonpublic schools to	14
purchase and install at least one, rather than only one,	15
exterior secure master key box for each school building that is	16
assigned an internal retrieval number by the Department of	17
Education and Workforce.	18
Requires a district or school to install an exterior	19
secure master key box on the school building or in a strategic	20
location for optimal law enforcement response on school	21
premises.	22
Removes "modifications to doors or windows" from the	23
examples of substantial school building modifications for which	24
a district or school must provide updated building maps to law	25
enforcement agencies and emergency responders.	26
Requires a district or school to ensure that all master	27
external keys, master internal keys, and access cards are in	28
current operable form.	29
