

EXHIBIT I

SCOPE OF WORK

Supply Technologies LLC City of Union, Montgomery County

On December 15, 2025, the Ohio Tax Credit Authority (“Authority”) approved a 1.206 percent, 7-year tax credit for Supply Technologies LLC (“Supply Technologies”) for the creation of \$3,000,000 in new annual payroll as a result of the company’s project in the City of Union, Montgomery County. As part of the tax credit agreement, the Authority requires the company to maintain operations at the project location for at least ten years.

Supply Technologies sources a broad range of precision components and provides supply chain management, warehousing, and distribution for clients in the automotive, manufacturing, and aerospace sectors.

Ohio is competing with Kentucky for this proposed project. State support will help ensure the proposed project moves forward in Ohio.

The proposed project by Supply Technologies in the City of Union, Montgomery County, involves the consolidation of five of its facilities in the U.S. into one central kitting and cross docking facility to serve the North American market. Supply Technologies will invest \$5,750,000 in machinery and equipment for its proposed project.

Supply Technologies expects to create 57 full-time equivalent employees, generating \$3,000,000 in new annual payroll and retaining \$2,000,000 in existing payroll by 12/31/2028 at the project location. In addition, the company will claim the tax credit on Ohio employee payroll generated at the project location in excess of the company’s baseline payroll at the project location.

By letter dated October 31, 2025, the City of Union expressed support for the project.

Disclaimer: Please note that this is a general description of the overall project and will not be used for purposes of determining compliance under this agreement.
